The Chief Sec's letter d. 21.2.1933 Dr Coleman was told that subsequent enquiries showed that a portion of the land was required for the purposes of the Mysore Military, and that Govt considered it desirable that plots B & C be reserved for the proper lay out of a Mily Cantonment for the State Forces. Dr Coleman was requested to hand over these plots to the Chief Comdt if he (Dr C.) saw no difficulty

The Chief Comdt is working out further details on the assumption that the lands will be handed over to the Mily Dept.

Dr Coleman now states that the proposal seems counter to previous proposals of Govt for utilisation of the land. The reason for this is

given in the Govt. letter d. 21.2.33 addressed to Dr. Coleman — the Mysore Lancers could not abandon the use of the Ranges as suggested previously by Mr H.V. Sreenivasa and so the requirements of the Mily. also had to be considered.

11. Dr. Coleman refers to a talk with the Dewan before he left for England and a suggestion of having a discussion with the Chief Comdt & a joint inspection with him. It would perhaps have been convenient if this had been done before Col. Leach left (in June last). ~~He has not~~ in the circumstances

With reference to Chief Sec's letter no 2011 dy 9/12
re the handing over of certain portion of the Hebbal Area to the Military kept vacant but for the reasons detailed the orders in question may be kept in abeyance, as it would be very inconvenient to hand over the portion to the west of the Bangalore-Hebbal Road, where the Reserve depot for the animals of the Serum Institute is located.

The Director states that the present site (west of the Bangalore-Hebbal Road) reserved for the Serum Institute is a very suitable locality for housing the animals of the Serum Institute, but the level ground available in this portion is very suitable for breeding work on Horse Rasp & Grounnut & requests that taking these into consideration the present order directing the handing this area to the Military kept may at least be kept in abeyance till the Govt for the animals etc. Govt finally arrangements are made after going into the matter.

Submitted for orders (Reference para 25, page 8).

7/1/38. Dr. Coleman seems still to press for his request for a full discussion of the matter with the Chief Commandant before arriving at a final decision.

A part of the area to east of Hebbal road has been already handed over & he is

prepared to hand over the remaining portion on this side if the Agri. Dept is paid Rs 500. On the whole, this area is not ~~exces~~ large.

A Re: land to the west of the Hebbal Road, it is for consideration whether the minimum extent required out of this for locating the animals may continue to remain in the possession of the Serum Institute until other arrangements are made and the balance handed over to the Hiley Dept. This may not be convenient as the Hiley. cannot freely use the land. Apparently the sum of Rs 6240 stated to have been sanctioned in the PWD for improving the buildings to make them fit for a reserve Depot, has not yet been spent & it may not be very difficult to find another place for keeping the animals though it may cost more.

These papers have been requisitioned for a note to put up soon after receipt by 17/1

Very Urgent.

Dear Mr. Ranga Rao,

With reference to the file concerning the Agricultural Department's Serum Institute to be built in one of the plantations near the Hebbal Range Area, which was returned to you yesterday by my office, with an incomplete note from me on it: The Plantations around the Hebbal Range Area are not within the land handed over to the Military Department and we are not concerned with the buildings thereon so long as they are not in line with and within the danger area of the Mysor Lancers and Mysore Infantry Rifle Ranges. I did no complete the note on the file, as I had instructed my Staff Officer to see the Director of Agriculture and to ascertain the exact location of the proposed Serum Institute, to make sure that it was not proposed to be built within the line of fire of the Rifle Ranges. Yours sincerely,

Dear Mr. Ranga Rao,

In continuation of my D.O. No. C. 500/31-32 dated 23-5-1933:

You will remember a conversation with the First Member of Council concerning accommodation for the additional two platoons it is proposed to raise during the ensuing year.

I have today inspected the buildings on the Old British Musketry Camp Site at Hebbal near the Assistant Military Adviser's Bugalow, and find that with very little expense they can be adapted to meet the requirements of the Second Battalion, Mysore Infantry (Training Battalion), thus leaving accommodation free for the extra two platoons in the First Battalion Lines. The requisite expenditure is estimated at about Rs 2,000/- including the fitting of water and electric light connections. This will meet the needs of

for this extra establishment in a very satisfactory and economical manner. I shall be much obliged if you will inform the First Member of Council.

I am having the necessary estimates prepared and money will be found from the Public Works Budget for 1933-34.

I shall be obliged if the transfer of sites mentioned in my D.O. under reference may be expedited.

Yours sincerely,

Dear Mr. Ranga Rao,

With reference to your D.O. letter No. Camp Mysore 4 of the 7th June and subsequent reminder, I discussed this question with Sir Mirza Ismail shortly before he left for England. I pointed out at that time that the proposal to hand the areas referred to over to the Military Department ran counter to previous proposals of Government for the utilization of this land.

I promised to go over the whole area carefully and submit a report representing my views as to the minimum requirements of the Agricultural Department. I have done the inspection but have not yet had time to submit the report. I understood Sir Mirza at that time to agree that it would be necessary for me to have a discussion with the Chief Commandant and possibly a joint Inspection with him before any thing definite could be decided. That has not been possible. In light of the above there could of course be no question of handing over this area to the Military Department nor has that Department approached me in this connection.

Yours sincerely,

Dear Mr. Ranga Rao,

With reference to your letter No.2011/P.P. dated 9th December 1933, regarding the handing over the Hebbal Rifle Range area to the Military Department, I write to point out that the area that could be handed to that Department immediately has already been so handed over. This area is part of the land to the East of the Bangalore-Hebbal road. The remaining portion of this same land can also be handed over, the military Department however being asked to pay to the Hebbal Farm the sum of Rs.500/- which has been expended in laying it out in its present condition.

As regards the handing over of the lands to the West of the road, I am afraid this will have to be kept in abeyance for the present. The reasons are the following:-

1. The Reserve Depot for the animals required for the Serum Institute to be kept in quarantine is now located in this area and there are now some 250 animals located in the present buildings which have been adapted temporarily for this purpose. I may point out in this connection that Government have in their Order communicated in letter No.2000/S. of the 21st February 1933, from the Secretary to Government, Public Works Department, sanctioned the expenditure of Rs.6240/- on these buildings for the purpose of a Reserve Depot, Obviously, if this order is now to be cancelled, I shall have to search for another place to keep these animals and buildings will have to be erected to house them, all of which will take time. The importance of ~~the~~ our Serum Institute has been fully recognised

by Government and I am afraid the present proposal, if acted upon immediately will seriously interfere with its efficient working. I do not know if any site possessing the advantages of the present one can be easily procurable; in any case, it is probable that a considerably larger sum than Rs.6240/- will have to be provided for buildings. It was these considerations which influenced me to request the Dewan to allow this transfer to be held in abeyance until I could discuss the matter fully with the Chief Commandant and I understood that my proposal in this connection was approved.

2. Among other matters which have been decided on the understanding that this site was intended for the Serum Institute, is the arrangement come to, after a good deal of negotiation with the Kaiser-I-Hind Mills, by which the Company gives us permission to tap their water main for purposes of water supply to the animals in the depot, on our paying them a nominal fee of Rs.60/- per annum.

3. It will be impossible, in any case, to shift the animals and hand over the area immediately as a proper place will have to be secured for them and buildings erected.

4. The area on the Hebbal Farm for breeding & work on Hair Ragi and Groundnut is very insufficient and the level ground available in this land is found very suitable, thereby enabling the Department to extend this important work which is being held up for want of sufficient land in the Hebbal Farm.

I should be glad if all these matters would be taken into consideration and that at least these new orders be held in abeyance till the matter can be gone into and satisfactory arrangements made.

Yours sincerely,

Leslie Coleman

SIR,

With reference to correspondence ending with my D.O. No. Roc. 36 Fa.1 33-34 dated 5th July 1934, regarding the handing over to this Department, the Forest Plantation area in connection with the construction of the new Reserve Depot of the Serum Institute, I have the honor to state that the revised plans and estimates for the construction of the new reserve depot have been counter-signed and returned to the Executive Engineer, Bangalore Buildings Division for necessary execution. But as the site on which it was originally proposed to construct the building happened to be in the Military area which has been subsequently handed over to the Military Department under the orders of Government, it has now been decided to locate the building in a suitable portion in the Forest Plantation area. As it is very necessary in the interest of the work of the Serum Institute to start the construction work immediately, I request that Government will be pleased to communicate orders regarding the handing over of the
